

## **Friends and Family Day Friday July 10th**

The Friends and Family Day is always a popular and enjoyable event, giving members the chance to bring guests to fly. Visitors just pay a daily membership fee of just £12.20, in addition to their launch and soaring costs.

In recent years there has been virtually no demand for winch launching. As visitors generally enjoy a much better flight from an aerotow, there will be no winch launches this year. This also aligns with club policy, which does not include winch-launched trial flights.
