

The Friends & Family Day this year is Friday July 10th.

This annual event is always a popular and enjoyable day where members bring guests along to fly at club rates on the member's account, with just a daily membership charge of £12.20 on top of the launch and soaring.

We need a team of at least three instructors, and a good number of helpers. There was no demand for winch launches last year, and visitors generally enjoy a much better flight from an aerotow. Therefore, there will be no winch launches this year, which aligns with club policy, that states that Trial Flights are by aerotow only.

When the rota for the day is on the club website, do please volunteer and/or bring along some guests on the day. It would really help if you could indicate on the rota how many guests you are bringing, as the number is limited to 26 and we have almost been oversubscribed in recent years.

Thanks
Alastair
